Defence Technology Prize 2022 Team (Research & Development) Award Winner

ADVANCED PAYLOAD TEAM

DSO National Laboratories

CITATION

DSO's Advanced Payload Team has developed a highly miniaturised, advanced sensor system with unique performance. Completed within a fast development cycle, the project paves the way for more cost-effective development and delivery of compact, high performance sensors. In recognition of its outstanding achievements and contributions, the team is awarded the DTP2022 Team (R&D) Award.
